GPS address: 99 South Street, Selkirk, NY 12158
Cost: Free
RSVP: RSVP by April 18th to: enyaci@aol.com or call Ron Vaughn at (518) 283-8637
Topic: Tour the Oldcastle Precast Plant

The Oldcastle Precast Plant in southern Albany County was started by Callanan Industries in the mid 1960s. Both were acquired by CRH plc, a Dublin-based multi-national company in 1983 and became part of Oldcastle, the U.S. division of CRH. Oldcastle Selkirk is a PCI certified plant and manufactures primarily structural precast components, including hollow-core plank, columns, beams, carbon fiber reinforced insulated and solid wall panels, stairs, stadium risers, and balconies. Oldcastle Selkirk is also an industry leader in total precast buildings with thin brick and various concrete finishes.

Notes:
1. Ample parking
2. Bring your own PPE if you have it. PPE is available for anyone who needs it.
3. If you are employed by a precast company, please do not sign up for the tour.

This program is a joint program sponsored primarily by the Eastern New York Chapter of the American Concrete Institute (ACI) and in part by SAME, ASCE, SEI, ABCD, APWA, and ASHE.

About SAME:
The Society of American Military Engineers (SAME), the premier professional military engineering association in the United States, unites architecture, engineering, construction (A/E/C), facility management and environmental entities and individuals in the public and private sectors to prepare for—and overcome—natural and manmade disasters, and to improve security at home and abroad. The Capital District branch of SAME serves 37 members.
